QUALITY & SUPPORT

Numerous well-known brands partner with Gordon Labs to develop and manufacture their products due to our high-quality standards and unparalleled responsiveness. These along with our creativity, innovation and continuous improvement in every aspect of technology and ingredient formulation are what set us apart.

Founded in 1937, Gordon Labs is an OTC facility compliant with applicable FDA and ISO regulations and guidelines. We work with TGA, EU, Health Canada and others to help bring your brand to market. Our chemists and technicians are experienced in:

- Product formulation and development using Clean Beauty standards.
- OTC formulations for acne, sun care, self-tanners, anti-aging and whitening/brightening products.
- Formulations that meet both U.S. and international standards.
- Modifying and updating your existing products for regulatory compliance and to take advantage of current market trends.
- Replicating, validating or cost engineering your existing formulas using the latest technologies and ingredients available.

RESEARCH & DEVELOPMENT

Gordon Labs will provide your brand with exceptional research and development expertise. We partner with you every step of the way: from initial product concepts to formulation, production, testing and quality control.

Our compounding and fill equipment is able to blend and handle all your personal care product needs including tubes, bottles, jars, airless, hot fill, sachets or glass packaging. Formula types include:

- Anti-Acne treatments
- Anti-Aging Creams, lotions, Serums
- Botanical Formulas
- Baby/Toddler Products
